

# Dumgal Against Pylons Supporter Comments

My unreserved thanks to ... all the team for the most successful and cogently-argued popular uprising I have ever known - and I spent 30 years immersed in bureaucracy down south. I tried to do my bit down at this end, especially with Rory Stewart who was very receptive and helpful but it is your collective knowledge, efforts and determination that have given this horror story a happy ending. I expect that a night or two at the pub is called for! BL

This wonderful news and well done you and all those who did so much to put forward such a professional case....FABULOUS...!!  
I was serious when I said I would not live beside pylons....even if it meant locking up the house and going.... so glad that won't be necessary it seems !! TF

Marvellous outcome, well done to the no to pylons committee could you please convey my heartiest congratulations and thanks to the team for their extremely hard work on all our behalf's. KA

Well done for everyone's hard work, ... Continued pressure and honest public scrutiny, for once, has won the day. GD

Wonderful - an even better outcome than I could have hoped for! Well done all. JT

that is GREAT news!!!!!!!  
Fantastic, that is a stone of the heart, wonderful! MV

Congratulations, ... all your hard work and effort has not been in vain. AF

Great news!

Well done RL

Great news Penny. Better than I ever dreamed we could hope for. Of course there will be continuous anxieties because life is never static and who knows where and what the next threat will be, but I take heart from the fact that other areas with similar predicaments will also be encouraged to take on similar challenges. BW

Thanks for this excellent news and congratulations on your campaign which gives us great encouragement here in West Aberdeenshire to get them to look again at the need BH

Brilliant!! Well done ... everyone involved. MN

Great news!  
LB

I have been sharing the news with my neighbours since yesterday. A great relief. But we shall continue keeping an eye on SPEN's activities. RA

Yes great isn't it? JM

Well done to all the campaigners!! JP

Just want to say a huge thank you to ... the team for all the work you have put in so far on the project. A day of huge relief it has to be said!

I think you're right though that we have to stay engaged and see what happens on phase 1a, there is still further work to come in our area (phase 2) I know, but how this is handled could have far reaching implications right across the country. DN

Splendid news, we are so relieved, it's hard to describe how much this change of plan means to us as a family. Thanks again for leading such a remarkable campaign, hats off to ... the team! H & A

This is indeed cause to celebrate. Well done to all of you who have done so much to get to this point. I realise that vigilance is needed and we will do anything we can to assist in future.

Yay!!! JA

Many thanks yet again D&BO

Fin Carson MSP: "That these concerns were raised is in no small part down to the hard work of the action group, 'Dumgal Against Pylons' who put their case forward so eloquently"

Motion lodged by Oliver Mundell MSP in Scottish Parliament: "That the Parliament welcomes SP Energy Network's revised plans in relation to its Dumfries and Galloway Strategic Reinforcement Project; recognises the significance of the project's drastically reduced route and the positive outcome that this will have for the Dumfriesshire constituency, which will no longer be affected, and further recognises the efforts of Alan Jones and the Dumfries and Galloway Against Pylons group for their efforts in achieving this result and for the engaging way in which they have campaigned on behalf of local residents and stakeholders."
